About OKO Wholefoods

OKO stands for Original Kitchen Organics - a name that reflects a commitment to wholesome, authentic food products made from real ingredients. Rooted in a farm-to-kitchen philosophy, OKO products are crafted using traditional methods.

International sales for OKO Wholefoods are managed by Adobha International Pte Ltd, Singapore. The portfolio brings coconut-based food products from India to importers, distributors and retail partners worldwide.

The collection includes coconut oils, coconut milk and cream, coconut sugar, coconut flour and coconut powders - a versatile range for everyday cooking, baking and food retail.

Our Philosophy

At OKO Wholefoods, our philosophy is built on a simple belief - food should remain as close to nature as possible. We are committed to preserving the authenticity, purity, and nutritional value of every ingredient we use. Our approach focuses on producing food that is wholesome, minimally processed, and free from artificial additives, allowing consumers to enjoy products in their most natural form.

Rooted in traditional wisdom, we follow time-honoured methods of coconut processing, such as cold-pressing using a traditional wooden press, which helps retain the natural aroma, nutrients, and health benefits of coconut. By combining these traditional practices with modern food safety standards and quality control systems, we ensure that every batch of product maintains consistent quality and reliability.

We believe that responsible manufacturing begins at the source. From carefully selected raw coconuts to controlled production processes and hygienic packaging, every stage of our operation is designed to maintain the highest standards of quality and traceability.

About HMMS

HMMS stands for Honestly Made, Mindfully Snacked - a name that brings together the pleasure of good food and a more considered approach to everyday snacking.

International sales are managed by Adobha International Pte Ltd, Singapore. HMMS puts coconut at the centre of a flavourful snack collection. Our coconut chips are baked, not fried, with a satisfying crunch and flavours worth exploring.

The collection includes Classic, Tropical, Choco Bliss and Vanilla Velvet in 75 g packs, alongside Pineapple Coconut Chips in a compact 15 g pack.

From a quick break to a snack shared with friends, HMMS brings coconut flavour to the moments between meals.

Our Philosophy

At HMMS, our philosophy begins with a simple belief - snacking should be a pleasure, thoughtfully chosen. We want every pack to offer flavour, texture and a reason to enjoy the moment.

Honestly Made reflects a clear product story: coconut chips, recognisable flavours and straightforward information about what is inside the pack.

Mindfully Snacked is about being intentional with the small pauses in our day. A snack can be a moment to slow down, explore a flavour or share something enjoyable.

We pair familiar coconut with playful flavour combinations, keeping the focus on taste, crunch and everyday enjoyment.

About INDE Gourmet

INDE Gourmet means Independent Gourmet - a brand created to explore unique taste, guided by curiosity rather than the boundaries of a single cuisine.

We borrow freely: a South Indian podi, the fragrance of coconut and the distinctive tingle of Sichuan pepper. Familiar ingredients meet in combinations that offer something unexpected at the table.

Our Coconut Gun Powder is coconut podi with Sichuan pepper, available in two 200 g variants: Classic Tingle and Spicy Tingle. One tingles gently; the other brings a bolder chilli heat.

Our Philosophy

At INDE Gourmet, we believe a unique taste begins with an independent idea. We respect familiar food traditions while giving ourselves the freedom to explore new flavour combinations.

Our approach brings together the comforting and the unexpected: coconut and roasted dals, chilli and Sichuan pepper. Each ingredient has a part to play in the finished flavour.

Classic Tingle offers a gentler introduction. Spicy Tingle turns up the heat. Both invite you to add a little curiosity to a familiar meal.

Independent Gourmet is our way of thinking: create with purpose, explore with confidence, and let taste lead.
